UI/UX Designer

- **Coffee Shop Web design:** Developed a mobile app with "order ahead" functionality, streamlining customer experience and reducing wait times.
- **Multi-news Platform:** Developed a centralized news publishing platform that supports multiple authors and editorial roles.
- **Inventory Management System (ASP.NET):** Engineered a robust system for tracking stock levels, managing suppliers, and generating reports. Integrated user authentication and real-time updates.
- **Café Billing System (C#):** Created a desktop billing solution for cafés, featuring menu management, cost calculations, and receipt generation.
- **Sticky Notes Application (Django):** Developed a web-based note-taking app allowing users to create, edit, and delete sticky notes with a clean, intuitive interface.
- **Multi-Ecommerce Platform:** Contributed to a scalable e-commerce solution supporting multiple vendors and product categories, with secure checkout and admin controls.
- **Blog Site:** Built a dynamic blog platform using HTML, CSS, JavaScript, PHP, and MySQL, enabling content creation and user interaction.
- **Portfolio Website:** Designed and deployed a personal portfolio site showcasing projects, skills, and contact information.
